Profit and Loss are reflected directly in the client's account with complete transparency

LEVEL INCOME SYSTEM

Our model is not limited to trading profits alone – Be Rich With Us distributes Level Income through a structured reward system from its service share.

HOW IT WORKS?

- When a member joins and builds a network
- Income is generated based on the network's activity and performance
- This income is separate from trading profit

Example (10% Monthly Profit):-

- Suppose a client earns 10% profit in a month
- The client receives their eligible profit
- A predefined percentage comes under our service share
- Level Income is distributed from that share

Key Points:-

- The client's profit remains fully secure
- Level Income is paid only from our service share

RISK DISCLOSURE

- Be Rich With Us does not guarantee any kind of profit or protection from loss
- Trading is entirely dependent on market conditions
- Both profit and loss are possible
- Past performance does not guarantee future results
